

PROJECT PEH021

"EDUC-PLUS Permanent Training and Professionalism for Quality Services Provided to Children in the Protection System"

Update of activities - August 2016

- We are making preparations for the organisation of the training courses for educational staff working in residential care services, which will be held in September 2016 within the 10 beneficiary General Directorates for Social Assistance and Child Protection and the partner GDSACP Sector 1. The objective of this new module, the fourth under the project, is to create empowerment for educators in order to cope with the challenges of this profession, aiming at a better relation with the children in the protection system and quality educational approaches. The courses target a number of 240 educators and will be organised in 12 county series.
- We have completed the training model and pedagogical resources for the 4th Module of the training course for educational staff on empowerment. The pedagogical resources are posted on our website and are available in section Materiale pedagogice/ Resurse text.
- The educators participating to the training courses on empowerment have been reconfirmed by the 10 beneficiary General Directorates for Social Assistance and Child Protection and the partner GDSACP Sector 1. The project team is communicating with the local trainers in order to finalise the preparation of the courses.
- In this period the project team together with the beneficiary GDSACP and the partner GDSACP Sector 1 are making the preparations for the second series of the county seminars on public-private partnership benefiting the children hosted in the care system. The 11 seminars are planned for the second half of September 2016 and will bring together professionals from the GDSACPs, representatives of public authorities, professionals from social services and education, other institutions, NGOs, various private structures, mass-media, volunteers and children who are beneficiaries of residential care.

July 2016

In the period 11-13 July 2016 we organised in Bucharest, on the premises of CRIPS, the third module of the training course for the local trainers in the EDUC Plus project. This meeting with the local trainers in the 10 beneficiary GDSACPs and partner GDSACP Sector 1 was in preparation of a new training module on empowerment of educators working in residential care services within the General Directorates of Social Assistance and Child Protection of Sector 1 and of the counties of Alba, Arad, Arges, Bacau, Buzau, Cluj, Ialomita, Mehedinti, Mures, Valcea.

June 2016

The month of June 2016 was dedicated to the children's debate-workshops „We and the Community” held in 10 counties and Bucharest Sector 1 under the EDUC Plus project. A total number of 161 children, both from the residential care services and from the community, attended
